OLORUNMAIYE ADEBAYO

Kaduna State, Nigeria | +234 8165958715 | adebayomaiye@gmail.com

Summary

Maintenance Engineer specialized in plant utilities and control systems management, with over 3 years of FMCG manufacturing experience. Skilled in optimizing equipment reliability, implementing preventive maintenance, and driving operational efficiency. Recognized for troubleshooting expertise, enhancing asset performance, and ensuring compliance with safety standards. Strong leader with a proven ability to foster collaboration and deliver continuous improvement.

Core Competence

- Mentoring and staff development
- Leadership and team management
- Problem-Solving & Critical Thinking
- Strategic planning and decision-making
- Communication and stakeholder engagement
- Plant utility operations and management
- Mechanical engineering management
- Troubleshooting and root cause analysis
- Asset reliability and performance optimization

Experience

UTILITY TECHNICIAN | PLANT UTILITIES & CONTROL SYSTEMS | 05/2022 - Current
Seven-Up Bottling Company LTD - Kaduna State, Nigeria

- Ensure 99%+ utility availability across boilers, compressed air, and cooling systems, supporting uninterrupted production.
- Operate, monitor, and perform proactive and preventive maintenance on critical utility equipment, including steam boilers, air compressors, ammonia compressors, and industrial pumps, ensuring maximum reliability and operational efficiency.
- Conduct root cause analysis and troubleshooting to minimize equipment downtime, optimize system performance, and extend asset lifecycle in compliance with safety and regulatory standards.
- Mentor and train junior technicians in utility operations, maintenance best practices, and troubleshooting techniques, driving a measurable increase in team productivity and technical capability.
- Collaborate cross-functionally with engineering and operations teams to implement continuous improvement initiatives, enhancing equipment uptime, reducing maintenance costs, and supporting overall production efficiency.

Key Achievements:
✔ Improved utility equipment reliability and reduced maintenance costs through proactive system monitoring and data-driven maintenance planning.
✔ Enhanced team productivity by establishing structured troubleshooting and reporting systems.

MACHINIST | 12/2011 - 04/2017
Ademak Technical Engineering Works, Otukpo - Benue State, Nigeria

- Specialized in precision engine block reboring and crankshaft regrinding, ensuring compliance with OEM specifications and enhancing overall engine performance.
- Leveraged advanced machining techniques and diagnostic tools to deliver high-quality results, reducing rework and improving operational efficiency.
- Trained, mentored, and supervised junior machinists, fostering skill development, safety compliance, and consistent production quality.
- Applied process optimization and quality assurance practices to maintain accuracy, extend component life cycles, and improve customer satisfaction.

Key Achievements:
✔ Improved machining accuracy and efficiency by introducing tighter quality control and calibration processes.
✔ Reduced rework rates by 15% through adherence to precision standards.

UTILITY TECHNICIAN (INDUSTRIAL TRAINEE) | 08/2010 - 10/2010
Seven-Up Bottling Company LTD - Enugu State, Nigeria

- Executed utility operations and preventive maintenance to ensure continuous system performance, safety, and compliance with industry standards.
- Applied hands-on technical expertise in troubleshooting, repairing, and optimizing equipment to reduce downtime and improve operational efficiency.
- Collaborated with cross-functional teams to implement best practices in asset management, safety protocols, and sustainability initiatives.
- Leveraged data-driven insights and performance monitoring tools to support predictive maintenance strategies, and enhance system reliability.

Education

Federal Polytechnic Idah - Kogi State | Higher National Diploma
Mechanical Engineering (Power Plant), 08/2016

Certifications

Environment and Safety Management Institute, Taraba State

- Professional Diploma in Health, Safety, and Environment 2018

Environment and Safety Management Institute, Taraba State

- Associate Environment and Safety Manager (AESM) 2018
